A mix of freezing rain, sleet, and snow fell across mainly the northwestern counties of the CWA. Locations along and north of a Breckenridge to DFW line received from a Trace to 4" of ice, sleet, and snow accumulations. Most of the accumulations were due to snow, but locations in Cooke, Montague, Jack, and Young County received between 0.50-1.00" of sleet before transitioning to all snow. Roads were icy and there were several accidents but significant impacts were not experienced during this winter weather event.
